

Martin Yale 1217A Automatic Paper Folding Machine

Free Freight!

The 1217A paper folder is ideal for use in schools and business offices. The 1217A paper folder uses metal construction and folds up to a 90# bond sheet of paper. The finished product emerges on conveyor belts creating easy-to-handle, fanned stacks, kept in numerical order (ideal for financial institutions, billing centers). This product has been rated as a medium volume paper folder. Order yours today!

Features

- Ideal for use in churches, schools, business offices, and other organizations.
- Operates at a speed of up to 10,300 8 1/2" x 11" sheets per hour. (What does this mean?)
- Adjusts to fold documents into letter fold, double parallel fold, single fold, z-fold.
- Adjustable within a fold range of 2" to 11 1/2" on the 1st fold and 1 1/2" to 5 3/4" on the 2nd to allow for customized folds.
- Handles sheet sizes from 4" x 4" to 12" x 18".
- Handles 16# to 135# paper.
- Folded material emerges on conveyor belts creating easy-to-handle, fanned stacks.
- One of the first units in the industry to have a reversible motor.
- This folder does not work with glossy paper, for glossy paper folding check out our air feed paper folders.
